MR VICENTE QUIRARTE— CHIEF EXECUTIVE

ANNUAL REPORT TO CDNL 2001 – 2002

INFORMATION TECHNOLOGY

Most importantly this year, approval has been given to buy, **Aleph 500**, an updated automated library system.

DIGITAL LIBRARY

The National Library is running a project which aims to digitise the Collection Lafragua, the ancient and most consulted collection of the Library.

Also the Hemeroteca (Serials Department) has signed an agreement with a specialist international company to digitise old newspapers and magazines.

These projects will soon contribute to formation of the National Digital Library of Mexico.

Also the Library and the Serials Department launched their new websites.
